@Provisional.

* The increase in potential is due to the fact that an extent of 3.61 thousand Acres has been achieved over and above the target under Prakasam Barrage.

+ During 1967-68, data was collected for classes VI and VII and for classes VIII and XI respectively in view of changed pattern of Education. Thus there is some apparent short fall found in the targets achieved in upper primary classes but in reality there is no short fall. The enrolment in classes VIII has been added to high school stage.
